#1 NEW YORK TIMES BESTSELLER * "The Uninhabitable Earth hits you like a comet, with an overflow of insanelly lyrical prose about our pending Armageddon."--Andrew Solomon, author of *The Noonday Demon* With a new afterword It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible--food shortages, refugee emergencies, climate wars and economic devastation. An "epoch-defining book" (*The Guardian*) and "this generation's *Silent Spring*" (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it--the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation--today's. Praise for *The Uninhabitable Earth* "The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet."--Farhad Manjoo, *The New York Times* "Riveting. . . . Some readers will find Mr. Wallace-Wells's outline of possible futures alarmist. He is indeed alarmed. You should be, too."--*The Economist* "Potent and evocative. . . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . . He avoids the 'eerily banal language of climatology' in favor of lush, rolling prose."--Jennifer Szalai, *The New York Times* "The book has potential to be this generation's *Silent Spring*."--*The Washington Post* "The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . . I encourage people to read this book."--Alan Weisman, *The New York Review of Books* Ubiquitous at boutiques and cafés, on Etsy and Pinterest, in stationery and home decor, the art of chalk lettering is hotter than ever. Valerie McKeehan, an Etsy standout whose work has been featured in magazines and websites from Good Housekeeping to RealSimple.com, teaches us everything we need to know to create gorgeous hand-drawn chalk designs. The book is also a practice space, with three foldout "chalkboards"--the inside cover and foldout back cover are lined with blackboard paper. In over 60 lessons, learn the ABCs of lettering (literally) and basic styles: serif, sans serif, and script. Next, how to lay out a design, combine various styles into one cohesive piece, add shadows and dimension. Master more advanced letter styles, from faceted to ribbon to "vintage circus." Use banners, borders, flourishes. And finally, 12 projects to show off your newfound skills: including a Winter Wonderland Snow Globe; a smartphone-themed birthday card to text friends and family; a one-of-a-kind party invitation to create, photograph, and mail; and a bake sale sign guaranteed to put everyone who sees it in the mood for a cupcake! Vivica A. Fox is a dynamo who has created a lasting career on her own, through sheer, roll-up-your-sleeves DIY hustle. *Every Day I'm Hustling* is a personal book with a message Fox passionately believes in: that you make your own luck, that you never ever wake up in the morning thinking somebody's going to call you and offer you that part or ask you out on that date that's going to change your life, that you have to wake up and put on your longest eyelashes and fiercest heels and go out and make your life happen yourself. The actress provides start-today strategies for success in business and "been there" lessons in love, buttressed with stories from her early family life all the way through to today. Always honest and always funny, Fox also tells behind-the-scenes tales from some of her biggest movies - such as Uma Thurman's life-changing advice during *Kill Bill* and Will Smith's downtime pep talk on Independence Day. And she maps out exactly what it took to come back with a role on the smash hit *Empire* and her own frisky show on Lifetime, *Vivica's Black Magic*. She also shares her how-is-she-53? secrets to looking your best, no matter the age on your driver's license. Divorced wedding consultant Lauren Crandell finds her professional and personal life turned upside down by her demanding boss, pesky cat, psychotic clients, neurotic friends, and a firefighter who arrives to save the day, in a satirical look at wedding pomp and pageantry. Original. This book must not be ignored. It really is our final warning. Mark Lynas delivers a vital account of the future of our earth, and our civilisation, if current rates of global warming persist. And it's only looking worse. She's got a broken heart and a fully loaded arsenal. Ex-army ranger Jim Morgan leads a team of elite mercenaries, but eighteen years ago in Paris, he was part of a black ops unit whose mission was to hunt down a rogue operative. In order to trap the criminal, Jim seduced Noelle, the man's daughter--a ruthless act that cost him the love of his life and turned her into a mortal enemy. Now he can't trust her, but he still desires her. He also needs her help. Older, wiser, and unwilling to play the fool again, Noelle runs a group of highly skilled assassins. And she's just been offered the hit of the century: Eliminate Jim Morgan. History gives them no reason to trust each other, but with their lives in jeopardy at the hands of a common enemy, the lines between love and hate are soon blurred. Now Noelle and Jim must face the past if they want to have a future--let alone a future together. When a SEAL goes after your heart, don't put up a fight. They don't like to lose. Three hot titles of fierce, unexpected needs, sexual fantasies, and bad boys. Warning: Contains dangerously hot Navy SEALs that give the phrase "going commando" whole new meaning. Born and raised in London, David Lindo's passionate interest in the natural world, especially birds, began at an early age. His thriving curiosity opened a door for him into an unexplored world of urban birding. Years later he decided to champion the delights of birding in cities and reinvented himself as the Urban Birder. Using this illustrious alias David Lindo has brought urban birding back into the public consciousness, promoting its virtues at every opportunity and writing about it in the birding press. He urges people to look up when walking around in cities, or to stop and close your eyes in a busy street just to listen to the birds that may be singing. In his second book, David visits some of the world's most unnatural environments, revealing the astonishingly diverse range of wildlife that can be found when you take the time to look. Much more than a compendium of birding sites, each tale follows the Urban Birder in his enthralling pursuit of city birding. Accompanied by dedicated local conservationists and renowned birders, David gives a deeper insight into the true nature of each city. Featuring 70 locations to explore, *Tales from Concrete Jungles* is the perfect book to dip in to when on the move, or to hide away with on a rainy afternoon. Join David in his celebration of nature, pick up travel inspiration, and immerse yourself in his captivating quest for urban birding. From the best-selling author of *The Wind-Up Bird Chronicle* and *After Dark*, a rich and revelatory memoir about writing and running, and the integral impact both have made on his life. In 1982, having sold his jazz bar to devote himself to writing, Haruki Murakami began running to keep fit. A year later, he'd completed a solo course from Athens to Marathon, and now, after dozens of such races, not to mention triathlons and a slew of critically acclaimed books, he reflects upon the influence the sport has had on his life and--even more important--on his writing. Equal parts training log, travelogue, and reminiscence, this revealing memoir covers his four-month preparation for the 2005 New York City Marathon and includes settings ranging from Tokyo's Jingu Gaien gardens, where he once shared the course with an Olympian, to the Charles River in Boston among young women who outpace him. Through this marvellous lens of sport emerges a cornucopia of memories and insights: the eureka moment when

he decided to become a writer, his greatest triumphs and disappointments, his passion for vintage LPs, and the experience, after the age of fifty, of seeing his race times improve and then fall back. By turns funny and sobering, playful and philosophical, *What I Talk About When I Talk About Running* is both for fans of this masterful yet guardedly private writer and for the exploding population of athletes who find similar satisfaction in distance running. Jane I've always been on my own. My life used to consist of nothing but work, keeping Allen out of trouble, and if I had time, sleep. Then I became their maid. Max Every day more than half a million people tune in to watch my show. They trust me. I know it's because I'm the only son of the prominent Emerson family. However, I like to believe it because I'm honest no matter what story I report on. I'm honest about everything but the man I've been f**king for the last four years and now her. Wesley I want three things: First, Maxwell Emerson and Jane Chapman both in my bed. Second, to be the best bloody chef in the country. Third, to figure out how to simultaneously get the first and second things I want without any of us getting hurt. *Three People One Love Story* A sexy standalone novel from New York Times and international bestselling author Elle Kennedy! From the bestselling author of *Between Husbands and Friends* and *An Act of Love* comes a wise, wonderful, and delightfully witty "coming of age" novel about four intrepid women who discover themselves as they were truly meant to be: passionate, alive, and ready to face the best years of their lives. Meet Faye, Marilyn, Alice, and Shirley. Four women with skills, smarts, and secrets—all feeling over the hill and out of the race. But in a moment of delicious serendipity, they meet and realize they share more than raging hormones and lost dreams. Now as the Hot Flash Club, where the topics of motherhood, sex, and men are discussed with double servings of chocolate cake, they vow to help each other . . . and themselves. Faye, the artist. A determinedly cheerful widow and connoisseur of control-top pantyhose, she's struggling with creative block and an empty, lonely house. Now she's got a tricky problem to bring to the club's table: how can they catch her perfect son-in-law cheating on her only daughter Laura? Shirley, the healer. Though her yoga-slender body belie her years, decades of dating losers and the strain of being broke make her feel her age. Shirley has a secret dream: a wellness spa that nurtures body and soul. But first she needs to believe in herself, in her abilities, and in her friends at the club. Marilyn, the brain. A paleontologist who has spent so many years looking at dried-up fossils, she's almost become one herself. Worried that her brilliant but nerdy son is about to marry the very wrong woman, she gets some help from the HFC, who transform her from a caterpillar to a butterfly, with amazing results. Alice, the executive. Black and regal, she soared to the top of the corporate ladder. Now her shoes are murder on her arthritic back and the younger jackals are circling in for the kill. But as the inspiration behind the HFC, she's about to discover something extraordinary: contentment. For Faye, Shirley, Marilyn, and Alice, the time has come to use it or lose it—be it their bodies, their brains, their spirits, and their sense of fun. Together they realize that they can have it all, perhaps for the first time in their lives. And though what sags may never rise again, feeling sexy has no expiration date— and best of all, with a little help from her friends, a woman can always start over . . . and never, ever, give up what matters most. For generations, people have believed that nature's gifts have an important place in treating all kinds of ailments. Whether it's horseradish and honey for coughing, ginger for memory, or balding medicine, this helpful practical book, contains easy-to-prepare medicines, age-old wisdom and common-sense advice. From the Trade Paperback edition. A groundbreaking examination of the role that wood and trees have played in our global ecosystem—including human evolution and the rise and fall of empires—in the bestselling tradition of Yuval Harari's *Sapiens* and Mark Kurlansky's *Salt*. As the dominant species on Earth, humans have made astonishing progress since our ancestors came down from the trees. But how did the descendants of small primates manage to walk upright, become top predators, and populate the world? How were humans able to develop civilizations and produce a globalized economy? Now, in *The Age of Wood*, Roland Ennos shows for the first time that the key to our success has been our relationship with wood. Brilliantly synthesizing recent research with existing knowledge in fields as wide-ranging as primatology, anthropology, archaeology, history, architecture, engineering, and carpentry, Ennos reinterprets human history and shows how our ability to exploit wood's unique properties has profoundly shaped our bodies and minds, societies, and lives. He takes us on a sweeping ten-million-year journey from Southeast Asia and West Africa where great apes swing among the trees, build nests, and fashion tools; to East Africa where hunter gatherers collected their food; to the structural design of wooden temples in China and Japan; and to Northern England, where archaeologists trace how coal enabled humans to build an industrial world. Addressing the effects of industrialization—including the use of fossil fuels and other energy-intensive materials to replace timber—*The Age of Wood* not only shows the essential role that trees play in the history and evolution of human existence, but also argues that for the benefit of our planet we must return to more traditional ways of growing, using, and understanding trees. A winning blend of history and science, this is a fascinating and authoritative work for anyone interested in nature, the environment, and the making of the world as we know it. *Journalist Walls* grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description. *Hard body? The moment AJ Walsh sees the sexy, tattooed pixie walk up to his bar, it's lust at first sight. He's always been labeled the "nice" guy—opening doors, buying flowers, and never, ever having one-night stands. But with this wicked little angel with red lips and unfathomably dark eyes? Oh, yeah. Nothing—and no one—could be better for her reputation than golden boy AJ Walsh. So they make a deal: if he plays The Good Boyfriend for her family, he can be a very, very bad boy with her. Now their one naughty night is about to turn into a whole lot of trouble. Each book in the After Hours series is *STANDALONE*: * One Night of Sin (novella) * One Night of Scandal * One Night of Trouble Ever since Arthur M. Schlesinger Jr. used "imperial presidency" as a book title, the term has become central to the debate about the balance of power in the U.S. government. Since the presidency of George W. Bush, when advocates of executive power such as Dick Cheney gained ascendancy, the argument has blazed hotter than ever. Many argue the Constitution itself is in grave danger. What is to be done? The answer, according to legal scholars Eric Posner and Adrian Vermeule, is nothing. In *The Executive Unbound*, they provide a bracing challenge to conventional wisdom, arguing that a strong presidency is inevitable in the modern world. Most scholars, they note, object to today's level of executive power because it varies so dramatically from the vision of the framers. But there is nothing in our system of checks and balances that intrinsically generates order or promotes positive arrangements. In fact, the greater complexity of the modern world produces a concentration of power, particularly in the White House. The authors chart the rise of executive authority straight through to the Obama presidency. Political, cultural and social restraints, they argue, have been more effective in preventing dictatorship than any law. The executive-centered state tends to generate political checks that substitute for the legal checks of the Madisonian constitution. High school sweethearts Mia and Luke get a second chance at love in this brand-new contemporary romance from award-winning author Garrett Leigh. But now he's back, running his uncle's business and trying desperately to forget about Mia, the girl he left behind all those years ago.
